

Michael E. Medina | 8+ Years Cyber Security Engineer

Contact: MichaelTheMedina@gmail.com | (805) 457-4992 | [linkedin.com/in/MichaelTheMedina](https://www.linkedin.com/in/MichaelTheMedina)

Certifications: EC-Council: **CEH** | CompTIA: **Sec+ Net+** | Cisco: **CCNP** | Sans: Intrusion Analyst **GCIA**

Education: UMGC - **Master of Science in Cyber Security** | UCR - **Bachelor of Arts in Philosophy**

Professional Summary:

Cybersecurity specialist with 8+ years of experience spanning offensive operations, penetration testing, GRC compliance, and secure DevOps automation. Former NSA Exploitation Analyst with deep expertise in threat analysis, vulnerability exploitation, and training cyber operators. Skilled in bridging technical security with organizational risk management, most recently applying HIPAA compliance and DevOps security automation in healthcare and gaming industries.

Core Competencies:

- **Security:** Pentesting | Threat Analysis | Incident Response | Vuln Management
- **GRC:** HIPAA | NIST | ISO | SOC 2 | HITRUST | PCI | Audits | Zero Risk | Policy Dev
- **DevOps:** CI/CD | QA | IaC | Test Automation
- **Cloud:** AWS | Azure | GCP | Ansible | Terraform | Kubernetes | Docker
- **Communication:** Documentation | Presentations | Cross-Functional collaboration
- **Tools:** Burp Suite | SQLMap | Various SIEMs
- **Scripting:** Javascript | Typescript | Bash | Powershell | Python

Professional Experience:

GRC & Billing Specialist [ChromaCare Counseling] 2022 → Present

- Managed compliance strategy maintaining 98% adherence across SOC 2 and NIST frameworks
- Implemented processes for audit management, reducing compliance preparation time by 50%
- Developed 15+ security policies and procedures aligned with industry standards for risk

Producer & DevOps Automation [Deep Field Games] 2024 → 2025

- Produced "Abiotic Factor" launching on Steam, Xbox & PS5, achieving over 2 million downloads
- Led a cross-functional teams of artists, designers, programmers, and QA in a fully remote studio
- Designed, Implemented, & Documented cloud-based automated DevOps reporting systems

Attack Intelligence Analyst: Continuous Penetration Testing [BishopFox] 2022 → 2023

- Penetration tests against 50+ enterprises across healthcare, finance, and technology sectors
- Delivered security assessments to C-suite executives for organizations with \$100M+ revenue
- Reduced client time-to-remediation by 60% through documentation and remediation guidance

Exploitation Analyst - National Security Agency [NSA] 2015 → 2021

- Conducted vuln research across 500+ target systems, achieving 85% exploitation success rate
- Delivered 200+ actionable intelligence reports by analyzing TTPs
- Collaborated with 15+ mission teams to develop custom tools, reducing operation time by 40%

Instructor: Computer Network Operations: Exploit Analysis [NetSage] 2021 → 2022

- Designed and delivered 40+ hours of advanced exploitation courses to 150+ personnel
- Authored 25+ technical training modules, hands-on labs, and simulation environments
- Lead Training for 150+ NSA operators on exploitation, improving mission success rates by 30%.
